

## **Jobsite Supervisor**

We are currently seeking motivated candidates interested in building a career with our company.

### **Role of Jobsite Supervisor:**

- Monitor and promote jobsite safety, communicating regularly with our Safety Director.
- Field coordination and scheduling of subcontractors.
- Communicate and coordinate with our Project managers to assure timely material deliveries and upcoming manpower needs are anticipated.
- Communicate with clients to keep them informed and satisfied.
- Supervise employees.
- Tracking and meeting project schedules.
- Performing layout.
- Track and submit crew time logs.
- Inspect and monitor quality of workmanship by RCL and all subcontractors to achieve an exceptional level of quality.
- We often self-perform concrete and carpentry trades. Our jobsite supervisors typically assist crews with this work on smaller projects where full time management is not necessary.

### **Candidate Requirements:**

- Must be dependable, motivated, and detail oriented.
- Focused on safety at all times.
- Able to review and interpret commercial plans and specifications.
- Strong interpersonal skills relative to coworkers, clients, and subcontractors.
- Strong time management skills. Must be able to prioritize and ensure timely completion of tasks.
- Drug Free
- One or more years of field supervision experience.
- Minimum of an associate degree is preferred, but may be waived with sufficient past experience in a commercial supervisor's role.

### **Compensation and Benefits:**

- Highly competitive wage, based on applicant qualifications.
- Employer paid Health Insurance
- 401k with employer matching plan
- Paid holidays and vacation

### **We are an Equal Opportunity Employer**
